

Authentisign®

Spring 2017 Update Release Notes

Powered by

Confidential - For Instanet Solutions Clients and End-Users only

Authentisign Release Changes

We are releasing numerous and positive changes to Authentisign for April. Here is a list and description of the changes:

Notable Changes and New Functionality

1. We have added the ability for Signing Participants to choose not to show the signature/initials creation dialog after the first time - "Do not display again" at the bottom of the dialog, in screenshot below.

By clicking 'Accept' you agree to the Consumer Consent Disclosure, Terms of Service (TOS) and the End User License Agreement (EULA) and approve the electronic representation of your Signature and Initials for use when signing any document in this Authentisign E-Signature process.

2. The drag/drop images used in flyout on document annotation views (design, design mobile, document layout editor, form template editor) have been updated for better design and contrast on screen.

3. You can now Cut/Copy/Paste of annotations in document annotation views in various locations (Authentisign Design, Authentisign Design mobile, Authentisign Document Personal Layout Editor, Authentisign Forms Template Administrative Editor). This allows quick copy and paste in multiple locations, removing the need for repetitive dragging of annotations.

Listing Data in connection with the Product.

Paste	
X Cancel	

4. We've added a Tracking History menu item to Authentisign. This allows users to see recent activity across all signings, so they know what Participants have done (or haven't done).

To see the Tracking History, click on the Hamburger menu in the upper right (three green bars) and click Tracking History.

* instanet

5. We changed the Draw Signature/Instanct Ink pen size from 10 to 4. The result is a finer (narrower) signature line.

6. A new type of "grouped initials" that allows only one to be accepted. This allows signers to make a (single) selection in a form or document, in multiple checkbox/choice areas.

Confidential - For Instanet Solutions Clients and End-Users only

7. We've now given you the ability to a combination of SimulSign and Sign In line. Simulsign grouping was added to the add/edit participant, dialog so signings can be simulsigned in groups. This allows you to set-up a signing so some people can simulsign, but other are Sign-In Line. An example might be that you want two buyers to sign using Simulsign (first come first serve, but you want it sent to the Listing Agent for review only after they sign (Sign-Inline).

Mobile Specific Changes

We've made numerous interfaces to improve the mobile signing experience. In each set of changes below, the old version is on the left and new version is on the right. In each case, we've enlarged the fonts, the buttons and moved elements to make reading and tapping easier.

26. Signing Host Pin dialog.

27. Add Private Email dialog for Private Signers.

Other Changes

28. "Cancel" in dialogs has been changed to "Close".

29. Additional history is added for wizard documents being added/removed. Examples below.

30. We changed labels on header/documents around the "Combined Version" section of Authentisign details .

\ominus	Document Versions
Original Document	
Document for 1	23 Authentisign St. Edit (rev. 1)
Document for 1	23 Authentisign St. Edit (rev. 2)
Final Document	

- 31. Signed signature annotation background was updated and font change to date stamp (removed bold from the datestamp).
- 32. Updated radio button images are used on design/sign/etc views and final document .

33. The entire radio button group/initial group is highlighted when one of them are "next".

Listing Organization ("Multiple

34. We've added an option on step 1 of the wizard to disable the yellow icon/paper clip on final documents.

* Signing Name:	test123
Participant Order:	Sign In-line - Signing Participants sign in order.
	Simul-Sign - First come first serve.
Advanced options:	
E	xpiration Date: O Do not set an expiration date. Set this signing to expire on at 11:59 PM
	Reminders: Do not send reminders. Send reminder in 4 • hour(s). Repeat reminder every Never • hourt
Authentis	gn ID position: Top Left •
[

- 35. The fax # was removed from add/edit participant dialogs.
- 36. The system stamps radio buttons and checkboxes differently on signed documents (radio buttons now stamp using unicode font, checkboxes are now black).
- 37. Timestamps were removed from signatures on signing page and we changed the way we load signed images so they load faster.
- 38. Added keys to signed checkboxes/radio buttons.
- 39. All annotations on stamped / signed documents have been "flattened".

Bug Fixes

- 40. Fix bug with date stamp annotations in the form template editor
- 41. Other changes that require releases of multiple projects:
- 42. Add prompt to form editor letting user know they are being redirected to Authentisign when starting a signing from within Instanet Forms
- 43. Add flag to external portal/SSO to force prompt to add additional documents/forms when entering the wizard (to be used with the above redirect)
