## VII. Apportionment of the Annual Special Levy

The Maximum Annual Special Levy applicable to each residential lot is a function of the typical lot width as set forth in Exhibit A of the Rate and Method. In addition, all lots for which the final plat was recorded as of January 1, 2015 will be classified as either Developed Platted Property or Undeveloped Platted Property for FY 2015-2016. Lots for which an occupancy permit was issued as of April 30, 2015 will be classified as Developed Platted Property. Lots located within a final plat that recorded as of January 1, 2015 but for which no occupancy permit was issued as of April 30, 2015 will be classified as Undeveloped Platted Property. All property that is not classified as Developed Platted Property or Undeveloped Platted Property (and which is not exempt from the Special Levy) will be classified as Undeveloped Property.

For Fiscal Year 2015-2016 there are 14 lots of Developed Platted Property, 246 lots of Undeveloped Platted Property, and 870 projected lots of Undeveloped Property. This is based on City records that indicate (i) 36 and 14 building and occupancy permits, respectively, were issued as of April 30, 2015 and (ii) the following plats recorded as of January 1, 2015:

- Pulte at Mirehaven Phase I Traditional Residential (101 residential lots); and
- Del Webb at Mirehaven Phase I Active Adult (159 residential lots).

The Annual Special Levy is apportioned first to Developed Platted Property, second to Undeveloped Platted Property, and third to Undeveloped Property until the Annual Special Levy is equal to the Special Levy Requirement. The Maximum Annual Special Levies and Annual Special Levies for Fiscal Year 2015-2016 are shown in Table 5 on the following page. A listing of the Annual Special Levy amounts by uniform property code ("UPC") is attached as Exhibit A.
