Hannah G. Wiley is the founder of Clients On Command and a nationally known Facebook ads Expert and Digital Marketing consultant.

**CLIENTS ON
COMMAND**

You will learn some very advanced marketing tactics:

- ✓ **How the biggest real estate groups in the country are using FB ads** (and how you can apply the same advanced strategies to your own business, for a higher ROI than pretty much any other marketing strategy out there)
- ✓ **The online assets you need to get up to 2+ new clients a month from your Facebook Page** (and where most agents drop the ball, and therefore miss out on results)
- ✓ **How to make sure every lead comes to you already prequalified** (so you don't waste your time talking to "tire-kickers" and "looky-loos")
- ✓ **Why seller leads are typically 10x more expensive than buyer leads on Facebook** (and what to do about it!)
- ✓ **Step by step case study on how we sold \$3.3 Million worth of homes in 41 days** (and how to apply the same steps in your own marketing).
- ✓ **What to do now that Facebook has limited targeting for this housing industry** (and get your message in front of your ideal prospects, despite the new audience targeting limitations)

Hi I'm Hannah.

I'm a Facebook Ads Consultant, and after lots of testing, we have a handful of advanced strategies that are getting incredible results for our Real Estate Clients, which 99% of the world doesn't know about. In this workshop I'm excited to reveal the most effective tactics we've discovered so far. Spaces are limited so **REGISTER NOW AT GAAR.COM!**
